

# SURFLO® Winged Infusion Sets

***Take a look at our wings versus the competition and you'll see why SURFLO is a very well recognized brand.***

Terumo's soft, flexible interlocking wings readily conform to the body's contour. The wing is angled for ease of positioning of the needle during venipuncture, for less risk of vessel damage or occlusion of the lumen.

The precisely honed needle with ultra-thin wall design assures ease of penetration and continued access with a single insertion. SURFLO Winged Infusion sets have no components made of natural rubber latex.

# Surflo® Winged Infusion Sets

## 8" Tubing

Packed: 100/box, 10 boxes/case (1,000)

Product Code	Description
