

# Reynard

## Foam Tipped Swabsticks

### Foam Tipped Swabsticks

Reynard's foam tipped Swabsticks are a wetted pad adhered to a plastic stick which is used to sanitise the skin.

Reynard Swabsticks are larger than most common Swabsticks which makes it easier for topical cleansing prior to injection.

#### Convenient

Reynard swabsticks are individually sealed in easy peel sachets. They come in Regular size and Maxi.

#### Multiple Variations

Reynard Foam tipped swabsticks are available in Alcohol only and Alcohol and Chlorhexidine options.

#### Extra Large

Reynard offers a 70% Alcohol & 0.5% Chlorhexidine, Red Tinted Maxi Swabstick.

#### Technical Performance:

*Chlorhexidine has been proven to:*

- Increase biocidal activity for both bacteria and fungi.
- Broadens the spectrum of activity.
- Becomes more effective against a wider range of organisms.

Meets the requirements of BS EN1276:1997

**Directions:** Use the required number of swabsticks. Dispose of used swabsticks properly; do not flush.

Product specifications and availability may vary according to country. Always read the label and product information before use.

**Supporting documentation:** Full technical specifications are available upon request. **Bespoke solutions:** Should your market require more or fewer wipes, lightly scented alternatives or even biodegradable wipes, for example. Let us know. We are more than happy to develop bespoke solutions.

# Foam Tipped Swabsticks

Reynard swabsticks contain high levels of moisture and are larger than most. They are used for topical cleansing prior to injection.
