CATALOGUE | 2021

THERE ARE FOUR PARTS TO OUR BUSINESS.

**CUSTOMERS | SUPPLIERS | COLLEAGUES | COMMUNITY**

ALL OF WHICH CONTRIBUTE EQUALLY TO  
OUR ABILITY TO DELIVER AND OUR OVERALL  
SUCCESS.

## SEAMLESS SUPPORT FOR OUR CUSTOMERS.

Since 1984, USL has grown to be a significant supplier in the healthcare market of New Zealand. We supply a wide range of products to professionals nationwide. We are suppliers to all 20 district health boards and public hospitals in New Zealand. Today we have a significant presence in both consumer retail and industrial markets.

USL Aesthetics is the newest addition to the USL family, with an extensive line of products for the aesthetically minded. By keeping with the USL philosophy we are known for, we are excited about this new direction and look forward to cultivating new partnerships and success in this market.

## OUR SERVICING DIVISION.

Our highly skilled service technicians are equipped to install, service and repair the full USL product range and other medical equipment. This includes lasers as well as other servicing and preventative maintenance requirements. USL technicians work according to AS/NZS 3551:2012 standard and our workshop complies with ISO9001.

We are also the only authorised service agent for warranty repairs for all Welch Allyn® products.

## IT'S ALL ABOUT PEOPLE.

USL has been built by creating seamless relationships. Since 1984, we've built enduring partnerships with customers, suppliers and our community.

We set out to create the very best environment for our team so that they might deliver their unique skills to our markets.

## HUNTLEIGH SONICAID DOPPLER

### THE SONICAID DIGITAL DOPPLER – INCLUDES 2MHZ PROBE

#### A NEW DIMENSION IN SOUND AND VISION

**Visual presentation of fetal heart rate (FHR), in numeric and trace views, providing added clinical reassurance.**

With over 40 years' experience in fetal monitoring, our technological innovations have enabled us to develop a new digital platform for our latest doppler range.

This generation of doppler combines excellence in probe performance with digital signal processing, to provide superb digital audio using our unique Dynamic Digital Noise Reduction (DDNR) system and gel filter.

Our latest digital algorithms optimise FHR performance and the high resolution colour display includes new 'BIG numbers' & trace display modes. Doppler sound recording, on-screen trace review and playback are just some of the many features in this state-of-the-art digital doppler unit.

**\$1,199.00 + GST**  
Normally \$1,610.00 + GST  
Code: 14646

## HUNTLEIGH FETAL DOPPLERS

### FD1 FETAL DOPPLER

The FD1 combines all the powerful features of the D920 with the added advantage of displaying fetal heart rate. The high sensitivity 2Mhz probe provides reliable detection throughout pregnancy.

- Advanced fetal heart rate (FHR) processing
- Active noise reduction for crystal clear fetal heart sounds
- 2Mhz waterproof probe
- Advanced power management to conserve battery life
- Easy clean probe for improved infection control

### D920 FETAL DOPPLER

This audio doppler has been designed with ease-of-use in mind. Its high sensitivity transducer coupled with clear fetal heart sounds, enable the clinician to quickly locate the fetal heart.

- High sensitivity ultrasound for improved ease of use
- 2Mhz waterproof transducer suitable for use in a water birthing environment
- Battery low indicator
- Easy clean transducer for improved infection control

## THE NEW SONICAID TEAM 3

### FETAL MONITORING FOR THE NEXT GENERATION

Stylishly designed not to dominate the bedside, Team 3 offers accurate and clear visual status of the fetus and mother. The range is full of features providing cost-effective, reliable and accurate fetal/maternal monitoring.

Easy to use and intuitive via the icon driven touchscreen, the fetal heart rate can be displayed as 'Big numbers' which auto scale for single, twins or triplet monitoring for optimum visibility.

With the widest range of options, Team3 provides excellence in fetal heart rate monitoring with high sensitivity transducers and unique digital processing delivering the best possible monitoring of all mums, from low BMI to high in all antenatal and labour settings.

#### FEATURES:

- Dual Fetal Movement Markers (Manual & Automatic)
- High-Performance Audio for the most Sensitive Fetal Heart Detection
- The latest Most Powerful Release of the World-Renowned Dawes-Redman CTG Analysis
- Mains / Battery operation
- Integral Patient Database with Trace Memory with Unlimited Storage Capacity
- User Configurable Fetal & Maternal Alarm System

**P.O.A**

Please contact us  
on 0800 658 814 for  
further pricing

**TEAM3 - A/P**

**TEAM3 - I/P**

Antepartum and Intrepartum models available in singleton, twins or triplet configuration. Available with maternal vital signs and integral battery options.

**TEAM3 - E-CTG**

Paperless monitoring option with no printer.

**HUNTLEIGH**  
FREEDOM

## WIRELESS FETAL MONITORING SOLUTION

Sonicaid Freedom transducers offer flexibility of choice for monitoring mother and baby. The system consists of wireless fetal heart rate and contractions transducers and a receiver base system.

Sonicaid Freedom is designed for use with the FM800 Encore series and Sonicaid Team 3 of fetal monitors from Huntleigh.

Our waterproof wireless transducers allow the fetus to be continuously monitored while mum is bathing, showering or on the move, and provides the widest choice of birthing positions.

on 0800 658 814 for  
further pricing

## HUNTLEIGH PULSE OXIMETER

### MINIPULSE HANDHELD PULSE OXIMETER

The professionals choice, ideal for both spot checking and continuous monitoring of adult, paediatric and neonatal patients.

The MiniPulse range has been designed to provide clinicians with fast, reliable, portable measurements in almost any setting.

#### FEATURES:

- Larger display
- Long battery life
- Value for money
- Full function alarms
- Robust casing
- Probe storage ability
- Easy to use

**INFANT WRAP  
(3-15kg)**

**\$320.00 + GST**

Code: 10383

PROBE (5-15kg)**

**\$280.00 + GST**

Code: 10387

**MINI PULSE**

**\$1100.00 + GST**

Normally \$1,250.00 + GST

Includes adult probe

Code: 10366

**WELCH ALLYN®**  
MANUAL BP DEVICES

## WELCH ALLYN® MANUAL BP DEVICES

- Dura shock technology
- Remain in calibration longer than traditional gauges so is more accurate
- The only gauge that passes the AAMI shock resistant standard - can be dropped 76cm and remain in calibration
- Latex free
- Warranty - 3 years on cuffs

### OPTION TWO

DS55 has a traditional thumbscrew-style air release valve - 5yr warranty on calibration

**\$175.00 + GST**

Code: 5041

### OPTION ONE

S66 manometer and adult cuff in zip up case - 15yr warranty on calibration

**\$220.00 + GST**

Normally \$250.00 + GST  
Code: 40509827

## WELCH ALLYN® LED OPHTHALMOSCOPES

- Brand new technology
- Pocket Plus includes case
- Available in colours below, limited numbers at this price
- Warranty – 5 years

**LIMITED OFFER**  
**\$275.00 + GST**  
 Normally \$310.00 + GST

**CASE INCLUDED**

## WELCH ALLYN® EAR THERMOMETER

The PRO 6000 advantage lies in our innovative PerfectTemp technology, which overcomes the potential for low readings compared to core, by adjusting for factors that impact measurement accuracy.

Designed to take quick and accurate readings, to improve patient satisfaction.

- Large, backlit LCD display
- Dedicated memory recall button to display last measurement taken
- 60 second timer for manual pulse and respiration measurement
- Pre-heated probe tip and sensor helps support accurate measurements
- Green illuminating LED signals ExacTemp positioning feedback on probe tip
- Ergonomic handle design for a comfortable and secure hold

**\$325.00 + GST**  
 Normally \$350.00 + GST

## HILL-ROM® AFFINITY® BIRTHING BED

As used by all but one DHB in New Zealand

### Features

- Straight edge (U-Cut) mattress
- Integrated calf supports electric variable height
- Head and foot elevation
- Two half length side rails with integrated patient control
- Central brake and steer
- CPR
- Removable headboard
- Battery back-up
- IV Pole
- Automatic night light for patient security
- Trendelenberg manual operation of functions
- SWL 227kg
- Used by 19 DHB's – including Canterbury DHB

**P.O.A**

on 0800 658 814 for  
further pricing

## USL MEDICAL BRACES & SUPPORTS

### WRIST/PALM SUPPORT

USL Wrist/Palm Support is ideal for post fracture, immobilisation, wrist sprains and strains.

- Breathable polyester construction
- Hook and loop closures
- Malleable aluminium splints
- Available in left or right

### WRIST/THUMB SUPPORT

USL Wrist/Thumb Support is ideal for post fracture, thumb immobilisation, wrist sprains and strains and support of the CMC and MCP joint.

- Breathable polyester construction
- Hook and loop closures
- Malleable aluminium splints wrist and thumb
- Available in left or right

## BILISCAN & BABY SCALES

**\$6,600.00 + GST**

Normally \$7,659.00 + GST  
Code: BSCANHUL

### BILISCAN

BiliScan is a portable, non-invasive, transcutaneous bilirubin-analysis instrument.

#### YOUR ADVANTAGES

- Better measurement method because of innovative technology
- High measuring accuracy because of bichromatic photometry
- High correlation of measured value with plasmabilirubin concentration
- Fast decision - making because of immediate results
- Bloodless, painless and transcutaneous measurement
- Easy handling due to ergonomic design and well thought-out technology, compact and easy to use
- Energy-efficient because of energy-saving programming
- Cost effective in purchase and maintenance
- No consumables needed

### SECA BABY SCALES 354

The seca 354 is an all-around scale which has been developed on the basis of practical experience. It can be used not only as a baby scale but also as a floor scale for small children.

- Babies can be weighed safely and comfortably in the tray of the seca 354
- Baby scale and floor scale for children in one
- Mobile and robust for transport
- Breast-Milk-Intake-Function

\*Bag not included

MOLICARE

## MOLICARE LADY PADS PKT 14

These are especially designed for light to moderate incontinence. The anatomically shaped pad can be fitted securely and discreetly in firm fitting underwear or MoliCare Premium Fixpants.

- Soft breathable material for healthy skin
- Sift top sheet treated with Aloe Vera
- Three layer absorbent core that pulls fluid away from surface so that skin remains dry and healthy
- Breathable textile back sheet
- Adhesive strip to secure in underwear or MoliCare Fixpants®

## MOLICARE PADS PKT 28

Are especially designed for light to moderate incontinence. The anatomically shaped pad can be fitted securely and discreetly in firm fitting underwear or net pants.

- Absorbent pads with a Dry Plus fluid distribution layer and an odour neutralising super absorbent core
- Adhesive strip to secure in underwear or MoliCare Fixpants®

## MOLICARE FIX PANTS

Washable or can be single use used for holding pads in place instead of underwear.

## MOLICARE PREMIUM BED MAT

Protective waterproof backing and soft top sheet. Elastic foil stamping at edges avoids leakage and prevents underpad from moving.

- Useful to protect bed during labour
- Available in two sizes and by carton or packets

SIGVARIS

# SIGVARIS COMPRESSION STOCKINGS

Pregnancy is a very special time; give your legs the attention they deserve. Relieve the feeling of tired, heavy, aching legs. Assist with the reduction of swollen feet and ankles. Reduce the risk of varicose veins and increase your quality of life with the stylish SIGVARIS range.

**30%** of pregnant women will develop varicose veins in their first pregnancy **and 55% in their second.**

## WHAT ARE THE RISKS?

It is important to improve varicose vein circulation problems, as blood supply is vital to supply the body and organs with nutrients, oxygen and remove waste products. Varicose veins while unattractive, can also become inflamed and lead to thrombosis and phlebitis. They can also indicate that the body's major organs are receiving a reduced blood supply.

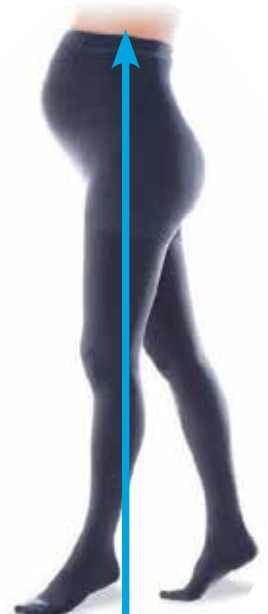

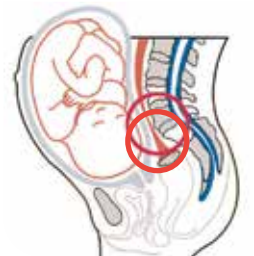

When a pregnant woman's uterus receives a reduced bloody supply this constitutes a stressful situation for the unborn baby. If pregnant woman's feet are already swollen on rising in the morning, a doctor should be consulted.

## HOW DO SIGVARIS MEDICAL GRADE COMPRESSION STOCKINGS WORK?

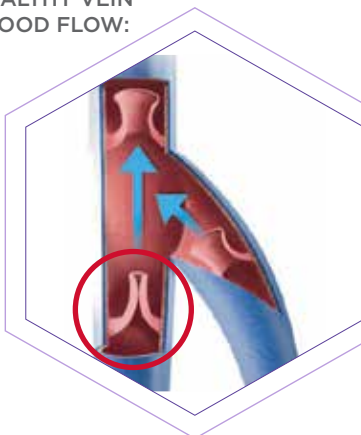

Preventing or treating varicose veins can be achieved through SIGVARIS medical grade compression stockings. SIGVARIS compression stockings are capable of mechanically counteracting the raise internal pressure with controlled external pressure. This reduces the volume of blood in the feet and leg veins driving it back to the heart and major organs.

Wearing compression stockings during pregnancy prevents blood from pooling in the veins and reduces the increase of an elevated heart rate in both mother and child.

## REDUCED BLOOD SUPPLY:

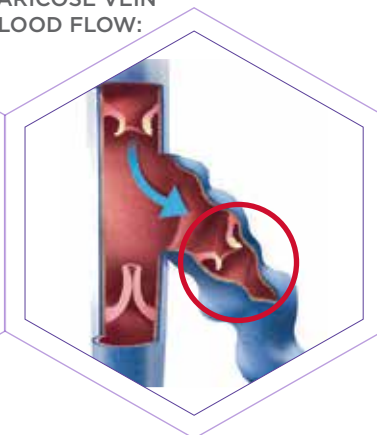

## HEALTHY VEIN BLOOD FLOW:

## VARICOSE VEINS:

## VARICOSE VEIN BLOOD FLOW:

# Suffering from morning sickness?

Compression stockings could be a non-pharmaceutical treatment to alleviate nausea and vomiting during early pregnancy.

SIGVARIS

A randomized crossover trial on the effect of compression stockings on nausea and vomiting in early pregnancy

## BACKGROUND

50-80% of all women experience nausea and vomiting in early pregnancy (NVP). NVP has a detrimental impact on women's quality of life (QoL), especially their ability to work.

Despite the fact that a number of therapeutic interventions exist to alleviate symptoms – ranging from pharmaceutical products to natural therapies – women remain reluctant to take medications during pregnancy, and a safe, effective and acceptable treatment for NVP is still to be found.

## STUDY DESIGN

The aim of this study was to evaluate the effect of medical compression stockings (MCS) on symptoms of nausea, vomiting and dizziness between 8 and 16 weeks of pregnancy, and their impact on QoL factors.

## PARTICIPANTS

Pregnant women >18 years and with mild to moderate NVP were eligible to participate. A total of 74 women were enrolled in the study. 58 women completed the study and were included in the analysis set.

**GROUP 1:** «MCS first» =  
2 weeks with // 2 weeks without

- Eligible: n=33
- Dropout: n=4  
(3 miscarriages,  
1 questionnaire incomplete)
- Final evaluation: n=29

## PATIENT RANDOMIZATION

**GROUP 2:** «MCS second» =  
2 weeks without // 2 weeks with

- Eligible: n=41
- Dropout: n=12  
(3 miscarriages;  
9 did not return for controls)
- Final evaluation: n=29

**RESULTS:** Endpoint = change in the Nausea and Vomiting in Pregnancy Quality of Life (NVPQOL) score

Compliance rate

Would recommend wearing MCS during pregnancy

## CONCLUSION

Wearing compression stockings in early pregnancy improves not only nausea and vomiting-associated symptoms, but also QoL factors such as dizziness, leg pain and physical/physiological limitations.

## AUTHORS' SUGGESTION

Compression stockings could be a non-pharmaceutical instrument to alleviate nausea and vomiting symptoms during early pregnancy.

# MAM Breast Care Pump

0+ months 1+ BPA FREE

The Manual Breast Pump from MAM has been developed with real attention to detail and it can be adapted to meet individual needs.

There are three reasons why expressing milk with the Manual Breast Pump is very pleasant and simple. The suction controller allows the suction strength to be adjusted easily to your individual preference.

When it's turned all the way to the right, the vacuum is held for up to three seconds. In this position, lots of milk can be expressed quickly and easily.

Pack includes: 1x 130ml Anti Colic bottle & 2x sealing disks

## MAM Breast Care Accessories

**Breast Care Pads**  
Extra thin and very absorbant

**Nipple Care Shields**  
For short term support during breastfeeding

**Microwave Steriliser**  
For microwave and cold water sterilisation

**4 Parts ONLY**  
Easy cleaning & assembling

# Sudocrem®

## HEALING CREAM

# Happy bum. Happy mum.

## Triple Action Emollient Cream Soothes, Heals, Protects.

Sudocrem® helps to soothe, heal and protect your baby's delicate skin and works in three ways:

- A water-repellent base forms a protective barrier, helping to stop any irritants (urine and faeces) coming into contact with the skin
- It both softens and soothes sore inflamed skin
- It helps to ease pain and irritation

Sudocrem®  
can be applied  
at every nappy  
change to help  
soothe your  
baby's skin.

\*Always read the label. Use only as directed. If symptoms persist, see your healthcare professional.

# Say Good Night

to discomfort from  
infant wind

Conni Ladies Classic –

Conni Ladies Active –

Conni Ladies Chantilly –

# Love

doesn't need to hurt.

**NEW**

Direct soothing  
effect for sore  
nipples

A mother's feeling of love can be overwhelming. It's easy to forget that it's just as important to take care of yourself as well as your baby. Because if you as a mum feel good, chances are that your baby will absorb that harmony. 80 to 95% of breastfeeding mothers experience some degree of soreness, swelling or nipple damage in the early stages of breastfeeding. Multi-Mam Compresses help treat sore nipples with a direct soothing and cooling effect, and also support the natural healing process. Containing a plant based active, Multi-Mam is convenient with no need to rinse off the gel between feeds.
