### SECTION 4 - FIRST AID MEASURES

EYES CONTACT:	Immediately flush eyes with large amount of water for at least 15 minutes while holding eyelids open. Get prompt medical attention.
SKIN CONTACT:	Rinse/Flush with large amounts of water for 15~20minutes; use available soap; if irritation persists or if concerned, seek medical attention. Remove grossly contaminated clothing, including shoes, and launder before reuse.
INHALATION (BREATHING):	Using proper respiratory protection, immediately remove the affected victim from exposure to fresh air and keep at rest in a position comfortable for breathing. Administer artificial respiration if breathing is stopped. Call for prompt medical attention.
INGESTION (SWALLOWING):	If swallowed, call a physician immediately. Rinse mouth and throat thoroughly with water. Do not induce vomiting unless directed by a physician. #### SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING CONTROLS:	The use of mechanical dilution ventilation is recommended whenever this product is used in a confined space ,is heated above ambient temperatures or otherwise to maintain ambient concentration below the recommended threshold exposure limited. Use explosion-proof ventilation equipment.
RESPIRATORY PROTECTION:	Where concentrations in air may exceed the limits given in this section, it is recommended to use a half face filter mask to protect from overexposure by inhalation. Suitable filter material depends on the amount and type of chemicals being handled in the workplace, but filter material of type "A" or similar may be considered for use.
SKIN PROTECTION:	The use and choice of personal protection equipment is related to the hazard of the product, the workplace, and the way the product is handled. In general, we recommend as a minimum safety precaution that safety glasses with side shields and workclothes protecting arms, legs and body be used. In additional, any person visiting an area where this product is handled at processed should at least wear safety glasses with side-shields.
EYE/FACE PROTECTION:	When handling this product, it is recommended to wear splash resistant goggles.
OTHER WORK/HYGIENIC PRACTICE:	No smoking. Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.
