OUR PARTNERS

preventing injury – supporting recovery

movement through life

Sports Injury Clinic is the centre for excellence for rehabilitation and injury prevention. Our point of difference is experienced and highly qualified staff who strive for optimal outcomes for our clients.

Our Northcross Clinic cares for amateur to elite athletes plus people of all ages and walks of life. Our clinic at Netball North Harbour provides world-class service to 16,000 players per week.

It is critical that we honour our promise of quality and part of our service is to provide products and strapping. Our extensive range of USL Sport Health Care braces are sought after and their tape has “never let us down”.

We have had a long-standing relationship with USL Sport Health Care for a number of years and is our first port of call for our clinical and rehabilitation product and equipment needs. In addition, our clinics are fully fitted with Gymna treatment tables, electrotherapy, cryotherapy and point of sale stands.

USL Sport Health Care can be relied on to stock an extensive range of high quality products at competitive rates and are delivered in a timely manner from order.

Jo Coleman
Director
Sports Injury Clinics

- OLYMPIC AND COMMONWEALTH GAMES PHYSIOTHERAPIST
- PHYSIOTHERAPIST TO SILVER FERNS AND BLACKSTICKS HOCKEY

Physio Rehab Group have had a relationship with USL Sport Health Care for over 20 years. Their ability to provide high quality products to all 22 of our physiotherapy clinics and external teams and organisations are second to none.

USL Sport Health Care certainly go that extra mile to ensure we always have on hand exactly what we require for any physiotherapy situation.

Karen Sutton

ENTER TO WIN FOR YOUR CLUB OR SPORTS COMMUNITY

Win either a
**Rescue Sam
Defibrillator** or an
**Emergency Care
First Aid Sport
Course** for your
Club or Sports
Community.

HOW TO ENTER

Enter as many times as you want to win!

Like our Facebook page www.facebook.com/uslsport/, share the post, comment your club/sports community and tag a club/sports community member as many times as you would like to go into the draw. The more times you enter the greater the chance of winning. The winner will choose either the Defibrillator or the Emergency Care Education Workshop.

EMERGENCY CARE EDUCATION WORKSHOP RRP \$2,000

A practical First Aid in Sport course delivered by Dr Stephen Kara and Mark Plummer, Physiotherapist (10 years' experience at Super Rugby level) for the club or sporting community.

A must for all sporting organisations.

- Delivered over two hours and limited to 20 people

Content covers:

- Head injuries – concussion
- Managing the airway in an injured athlete
- Neck and spinal injuries
- Cardiac arrest and choking
- Limb injuries

RESCUE SAM - AUTOMATED EXTERNAL DEFIBRILLATOR (AED)

- Traffic light principles – stop/go
- Five year warranty on device
- Four year battery life
- Device will self-test daily
- Supplied with protective carry bag
- Defibrillates from 20kg and above
- Paediatric electrodes available
- Info button calls up elapsed time and number of shocks since start
- Metronome assists care givers providing CPR
- Optional mounting solutions available

Terms and conditions: Enter as many times as you would like. Open throughout New Zealand. Competition closes at 5.00pm on the 01/04/18. Winner will be chosen at random through a random generator. Winning Club/Sports Community will be notified via Facebook. Winner gets to choose either prize, but cannot change their mind once chosen.

USL SPORT PREMIUM RIGID TAPE

USL SPORT PREMIUM RIGID 38MM

The highest quality zinc oxide tape in the New Zealand market. Used by a large number of our leading sports physiotherapists and sporting organisations.

- High quality rayon cloth tape
- Offering high tensile strength with strong adhesive qualities
- Pinked edges provide quicker tape application whilst eliminating threading
- Air permeability allows for evaporation of sweat, maintaining strength and stability
- The specifically-formulated zinc oxide tape for the skin has a strong adhesive for firm application

USL SPORT GRIPTEC COLD SPRAY 200ML

Cools and relieves pain associated with contusions, sprains and strains while being ozone-friendly. Contains no damaging fluoro-carbons.

CODE	DESCRIPTION	UNIT	QTY
12044	USL Sport GripTec Cold Spray 200ml	Can	1 - 5 6 +

GRIPTEC

Why use GRIPTEC?

- Hydrophobic ingredients repel water, giving uncompromising grip in wet conditions
- Specially formulated to excel in wet, hot, sweaty and dewy conditions
- Fine particle size grit in the formulation activates with moisture. This, combined with the stickiness of the paste, provides a high friction grip optimising control
- Forms a dry barrier over the skin to prevent sweaty, oily hands
- One small thumbnail sized drop of paste lasts up to 40 minutes
- Dermatologically tested and approved
- Made in New Zealand from natural ingredients
- Trusted by the best players in the world
- Precision, power, control

CODE	DESCRIPTION	UNIT
5183	GRIPTEC Paste	100g Tube
12070	GRIPTEC Remover	125ml Bottle
14313	GRIPTEC Instant Grip Spray - Aerosol	200ml Can

USL SPORT E.A.B LITE - RETAIL OR CLUB

USL Sport Lite E.A.B Sports Strapping Tape - a high quality elastic adhesive bandage which is hand tear-able. The stretch properties and conformability make this product great for providing extra support to injured or weak joints, overwrapping rigid strapping tape or providing compression to reduce swelling, with the ease of being hand tear-able.

USL Sport Lite E.A.B Sports Tape is an economical alternative to other Lite E.A.B strapping tapes.

ROCKTAPE AND KINESIO TAPES

ROCKTAPE

ROCKTAPE is a special kind of latex-free tape known as kinesiology tape. First used by acupuncturists and chiropractors in Japan, today kinesiology tape is used by practitioners throughout the world to treat injuries and improve sports performance.

What is ROCKTAPE used for?

- Achilles tendonitis
- Jumper's knee (PFS)
- ACL/MCL issues
- Rotator cuff
- Groin and hamstring pulls
- Lower back issues
- Shin splints
- Tennis and golf elbow
- Postural correction

How does ROCKTAPE work?

When ROCKTAPE is manufactured, a bias is introduced into the weave of the fabric so it stretches in one direction and not the other. This creates a bio-mechanical lifting mechanism that lifts the skin away from the soft tissue underneath, allowing more blood to move into an injured area to accelerate healing and recovery.

ROCK SAUCE

If you've used BioFreeze, Ben Gay, PowerFlex or China Gel you'll know how great these pain relievers can be. As good as they are, we felt they were missing something. So they challenged their scientists to create the ultimate pain reliever and skin cleaner - they wanted something new, something so powerful that you could feel it 30 feet away. They wanted Rock Sauce. To be clear, the Sauce isn't for everyone. It will make your eyes water and muscles sing. Did we mention it is powerful? How powerful? Try 20% Methyl Salicacae, 10% Menthol and .002% Capsaicin - you get the cold with the heat.

KINESIO® TAPE

KINESIO® TEX CLASSIC

The specific stretch, recoil and adhesive properties of Kinesio® Tex Classic Tape are completely unique when compared to all other elastic therapeutic tapes - which is why it is the only tape endorsed by the Kinesio® Taping Association for use with the Kinesio® Taping Method.

CODE	DESCRIPTION	UNIT
14013	Kinesio® Classic 5cm x 31m Beige	Roll
14014	Kinesio® Classic 5cm x 31m Black	Roll
14015	Kinesio® Classic 5cm x 31m Blue	Roll

KINESIO® TEX GOLD™ FP

Kinesio® Tex GOLD™ FP tape provides extended soft tissue manipulation to prolong the benefits of manual therapy administered in the athletic training room or physical therapy clinic. The results are; increased fluid flow through an injured area, better control over muscle contractions, reduced pain, and ultimately faster healing. The tape is also water resistant and withstands high moisture environments in addition to sweating.

CODE	DESCRIPTION	UNIT

BIOSKIN™ BRACES AND SUPPORTS

TRILOK®

Supporting Every Motion

The talus supports the weight of your entire body and controls foot pronation, supination, eversion, inversion, abduction, and adduction. With proprietary FootLok technology, the TriLok® uses the foot for leverage and mimics talus supporting tendons and ligaments. For ankle sprains or heel and arch pain, there is no alternative.

Indications

- Posterior tibial tendon dysfunction
- Plantar fasciitis
- Peroneal tendinopathy
- Ankle sprains
- Subtalar and ankle arthritis

Midfoot

Provide Unparalleled Arch Support

Mimic the posterior tibial tendon and the plantar fascia for arch support with the FootLok Strap.

Hindfoot

Decrease Heel Pain, Develop Function

Correct valgus/varus deformities in the heel and support the subtalar joint with the stirrup strap.

Ankle

Protect Lateral Ankle Ligaments

The TriLok® is the only support to use the foot as leverage for maximum ankle protection.

TriLok®
External Ligament System™

BIOSKIN™ KNEE BRACES AND SUPPORTS

PULL-ON

FRONT-CLOSURE

ADJUSTABLE HINGE

GLADIATOR™

Knee Ligament Protection

The Gladiator™ uses a rigid hinge to protect knee ligaments, including after reconstruction. The rigid strapping system firmly anchors the Gladiator™ to the leg, avoiding the need for larger, more expensive braces. Pins in the hinges may easily be set to limit flexion and/or extension.

Features

- Length: 15"
- Silicone gel patella ring for compression
- Easily adjustable flexion / extension settings
- Open patella
- Pull-on or front-closure design
- Fits left or right

Indications

- Anterior Cruciate Ligament (ACL) tear or sprain
- Posterior Cruciate Ligament (PCL) tear or sprain
- Lateral Collateral Ligament (LCL) tear or sprain
- Medial Collateral Ligament (MCL) tear or sprain
- Knee instability

CODE	DESCRIPTION	QTY

BS5136*	Gladiator™ - Front Closure - Open Patella	Each

Note: To indicate size, replace * with corresponding number from the sizing chart on page 66.

HINGED KNEE SKIN™

Lightest Hinged Knee Brace

This new hinge is 25% lighter and twice as strong. Much thinner too, with sleek uprights (only 1.5mm) and smooth-motion hinge gears.

Features

- Offset hinge reduces pressure at the knee joint
- Strapping system minimises migration
- Open patella
- Pull-on or front-closure design
- Fits left or right

Indications

- LCL tear or sprain
- MCL tear or sprain
- Meniscus tear

CODE	DESCRIPTION	QTY
BS4130*	Hinged Knee Skin™ - Open Patella - Ultima™ Material	Each
BS5133*	Hinged Knee Skin™ - Front Closure	Each

Note: To indicate size, replace * with corresponding number from the sizing chart on page 66.

PULL-ON

FRONT-CLOSURE

BIOSKIN™ KNEE SKINS AND PATELLA STABILISER

VISCO KNEE SKIN™

Silicone ring reduces swelling and provides passive massage to control edema.

Features

- Ideal after knee arthroscopy
- Pull-on finger loops
- Closed patella
- Fits left or right
- Available with a hinge for increased stability (ORDER ONLY)

Indications

- Knee sprains and strains
- Knee joint swelling
- Meniscus tear
- Osteoarthritis
- Patellar tendonitis

STANDARD KNEE SKIN™

Compression for minor knee pain and instability.

Features

- Available in open or closed patella
- Fits left or right
- Available with straps

Indications

- Mild knee sprains and strains
- Knee joint swelling
- Meniscus tear
- Osteoarthritis

NO STRAPS

WITH STRAPS

CODE	DESCRIPTION	QTY
BS4171*	Visco Knee Skin™ w/ Straps - Closed Patella - Ultima™ Material	Each

Note: To indicate size, replace * with corresponding number from the sizing chart on page 66.

PATELLA STABILISER

Stabilises the patella and provides general support.

Features

- Foam buttress ring around patella for stability
- Open patella
- Fits left or right
- Available with a hinge for increased stability (ORDER ONLY)

Indications

- Patella stabilisation
- Knee sprains and strains
- Knee joint swelling
- Meniscus tear
- Osteoarthritis
- Patellar tendonitis

DONJOY AND AIRCAST ANKLE SUPPORTS

AIRCAST®

DONJOY®

DONJOY® STABILISING PRO ANKLE BRACE

The Stabilising Pro Ankle Brace is designed to meet the needs of demanding athletes.

- New improved low-profile design
- Wide (75mm) circumferential elastic strap
- Universal fit – fits left and right foot
- Bilateral stays provide additional support and stability without compromising comfort
- Strapping which performs consistently
- Reinforced eyelet area and padded mesh tongue

*Measurement is circumference, taken from the base of the heel around ankle, while wearing an athletic sock.

AIRCAST® ANKLE SUPPORTS

AIRSPORT™

The AirSport™ ankle brace incorporates clinically proven Air-Stirrup® ankle brace features, such as a semi-rigid shell and aircells, to provide comfort and support during activity. Additional compression and stabilisation is provided by ATF (anterior talofibular) cross strap and integral forefoot and shin wraps.

- Foam-filled aircell which cushions and supports the ankle
- Semi-rigid encased shell offers proven Air-Stirrup® support
- Coated fabric for durability
- ATF cross-strap for ankle stabilisation
- Integral forefoot and shin wraps for support
- Automatic heel width adjustment for easy application

AIRCAST® AIRSPORT+

The Airsport+ Ankle Brace is a novel design, intended to help injured or weakened ankles regain their full potential. Ideal for mild to moderate sprains (grade I and II), ankle ligament distortions, tears, chronic ankle instabilities, prophylactic use, return to sports activities and post-op rehab use.

- Bilateral anatomically shaped shells minimise the risk of ankle roll-over
- Step-in design makes applying the brace easy
- ATF (anterior talofibular) cross strap and forefoot wrap provide additional compression and stability to the joint, helping avoid inversion/eversion
- Provides adjustable, uniformed compression, without creating pressure points

MCDavid™ KNEE BRACES AND SUPPORTS

MCDavid™ 429 KNEE BRACE WITH POLYCENTRIC HINGES

The best for high-level support; improving medial and lateral stability, helping reduce injury and assist recovery.

- Bi-lateral geared polycentric hinges for stability and free movement
- Engineered top and bottom straps assure personalised fit
- Latex-free neoprene provides thermal compression
- Open 360° padded buttress isolates and supports the patella
- Bound edges prevent irritation, fits left or right, black only
- Perforated back panel provides heat and moisture management and all-round comfort
- 100% latex-free 4.8mm neoprene (CR)—exclusive of binding/straps/cover fabric/hinges

MCDavid™ 425 KNEE SUPPORT WITH STAYS AND CROSS STRAPS

Best for moderate support, helping relieve symptoms and aid recovery from chondromalacia, patellar subluxation and tendonitis.

- Reinforced spring steel stays offer enhanced medial-lateral confidence
- Elastic cross straps for enhanced compression and added rotational and collateral ligament support
- Padded open buttress offers 360° support of the patella
- Top and bottom closures ensure outstanding fit
- Latex-free neoprene provides thermal compression
- Perforated back panel provides heat and moisture management and all-round comfort
- Exterior layer of nylon fabric for durability, fits left or right, black only
- 100% latex-free 4.8mm neoprene (CR) — exclusive of binding/straps/cover fabric

FORMTHOTICS™ INSOLES

3D LONGITUDINAL ARCH PADS SELF ADHESIVE

Provides additional support of the medial column of the foot.

- Attaches under the arch of Formthotics™
- Easy and obvious integration with Tri-plane wedge and Formthotics “teardrop”
- Utilises a softer compression-moulded EVA foam
- Increases midfoot inversion and stabilises excessive midfoot pronation
- 3D fit to medial border
- Minimal bulk
- Self-adhesive

CODE	DESCRIPTION	SIZE
16225	3D Longitudinal Arch Pads Self Adhesive / 3 Pairs	OSFA

3D REVERSIBLE FOREFOOT WEDGE SELF ADHESIVE

An orthotic addition suitable for forefoot modification of Formthotics™.

- Can be reversed to use on either lateral or medial aspect
- Easy to modify
- Long gentle taper
- Self-adhesive

CODE	DESCRIPTION	SIZE
17084	3D Reversible Forefoot Wedge Self Adhesive / 3 Pairs	OSFA

3D TRI-PLANE REARFOOT WEDGE SELF ADHESIVE

Alter foot biomechanics and the triplane action of dorsiflexion, eversion and abduction at the rearfoot.

- Attaches to the under surface of Formthotics™
- May be used as a medial or a lateral wedge
- Quick easy alignment with Formthotics™ “teardrop”
- Designed for accurate integration with arch support
- Tri-plane alignment of wedge
- 3D cup around the heel
- Minimal bulk
- Self-adhesive

CODE	DESCRIPTION	SIZE
16226	3D Tri-Plane Rearfoot Wedge Self Adhesive / 3 Pairs	OSFA

FORMTHOTICS™ INSOLES

REARFOOT WEDGES / 10 PACKET

Alters foot biomechanics and function in the frontal plane at the rearfoot.

- Attaches to the under surface of Formthotics™
- May be used as a medial or a lateral wedge
- Available in medium (blue only)

SOF SOLE® ORTHOTIC INSOLES

SOF SOLE®

All Sof Sole® inserts are sold as pairs, unless otherwise stated.

SOF SOLE® ARCH™ INSOLE

Sof Sole® Arch™ Insole is designed specifically for customers with high arches or anyone looking for enhanced arch cushioning. Targeted gel drops and a deep heel cup maximises comfort where it counts. Recommended for running, walking, cross-training, basketball, tramping, all sports.

- Hydrologix™ moisture wicking technology helps keep feet dry, and Microban® helps prevent the growth of odour-causing bacteria
- Enhanced arch support
- Polyurethane foam enhances comfort deep heel cup prevents slippage

CODE	DESCRIPTION	SIZE
14170	Sof Sole® Arch™ Insole	Men 7 - 8.5
14172	Sof Sole® Arch™ Insole	Men 9 - 10.5
14173	Sof Sole® Arch™ Insole	Men 11 - 12.5
14169	Sof Sole® Arch™ Insole	Women 5 - 7.5
14171	Sof Sole® Arch™ Insole	Women 8 - 11

SOF SOLE® ATHLETE™

The Sof Sole® Athlete™ is the preferred insole for anyone looking to improve the performance and comfort of their footwear. Neutral arch contoured design is suitable for all users, while light-weight cushioning and gel drops in the heel and forefoot offer comfort and performance without the bulk. Recommended for running, walking, cross-training, basketball, tramping, all sports.

- Hydrologix™ moisture wicking technology helps keep feet dry
- Implus® foam provides comfort and cushioning
- Microban® helps prevent the growth of odour-causing bacteria gel in the heel and forefoot absorbs the shock of Each foot strike

SOF SOLE® AIRR® ORTHOTIC INSOLE

Sof Sole® Airr® Orthotic Insole features an encapsulated air chamber in the heel and polymer gel in the forefoot for maximum shock absorption. Combined with a reinforced stability plate in the arch and heel, the Airr® Orthotic enhances motion control and support, making it ideal for customers with low to neutral arch types. Recommended for running, walking, cross-training, basketball, tramping.

SOF SOLE® PLANTAR FASCIA INSOLE

The Plantar Fascia Orthotic Insole is a long-lasting and comfortable solution for pain resulting from stress placed on the plantar fascia. The 3/4 length design fits any shoe type and works to keep feet supported and stable. Recommended for running, walking, cross-training, basketball, tramping, all sports.

- Plantar Relief Bridge provides sturdy support to painful arches
- Heel cup provides motion control and stability
- Gel in heel relieves pain from heel spurs
- Durable nylon composite plate

CODE	DESCRIPTION	SIZE
13890	Sof Sole® Plantar Fascia Insole	Men 8 - 12
13891	Sof Sole® Plantar Fascia Insole	Women 6 - 10

SOF SOLE® THIN FIT™ INSOLE

The Thin Fit™ Insole is the thinnest and lightest insole from Sof Sole® to date. Made to fit naturally into low-volume footwear including cleats, basketball, running, and casual footwear. Light-flexible foam contours to your foot, while increased cushioning in the heel and forefoot allow for enhanced shock absorption.

- Light-flexible foam conforms to foot and promotes natural stride
- COOLMAX® fabric top cover wicks away moisture
- Microban® helps prevent growth of odour-causing bacteria sleek
- Ultra-lightweight design (1.3 oz) fits comfortably in all types of footwear.
