#### YELLOW ISOLATION GOWN

with knitted cuffs

- 15 x 20cm 50pk

Code 14678

#### REYNARD SURFACE DISINFECTING WIPES

- 33 x 22cm Pkt50

Code 12857

## MoliCare Skintegrity for Comprehensive Continence and Skin Care

Coming into aged care from the community is a big change in a person's life and incontinence is often the reason why. MoliCare is widely prescribed by DHBs in the community for both elderly and others requiring continence pads and your resident may well be using MoliCare in their home. Through the combination of the MoliCare absorbent product range and MoliCare Skin products, Skintegrity continues to improve the quality of life of people living with incontinence, giving best outcomes for residents and staff.

What about skin integrity ?

An unique dual system for active skin protection :

# PREVENTION IS KEY

## Incontinence Associated Dermatitis

HARTMANN

### Incontinence-Associated Dermatitis (IAD)

is a common cause of skin breakdown seen in patients with incontinence, particularly in those with faecal incontinence.<sup>1</sup> It may be accompanied by redness, blistering, erosion and secondary infection.

IAD can also create a financial burden on healthcare with extended length of stay, extra treatment and care as well as potential further complications such as pressure injuries.

### Incidence

In an acute care study of 5,432 patients of which more than one-third were incontinent:<sup>2</sup>

- **45.7% of incontinent patients had a prevalence of IAD**
- **73% of patients with IAD developed the condition following admission**

The study findings are consistent with prior research supporting a clinically relevant association between IAD and pressure injury of the sacral area.<sup>2</sup>

IAD accompanied by unrelieved pressure results in a **5-fold increase** in pressure injury risk<sup>3</sup>

### Cost

Pressure injuries impose a large economic, and importantly avoidable burden to Australia. Estimated to be A\$983 million per annum. The costs estimated in the present study highlights the economic waste for the Australian health system associated with a largely avoidable injury.

Wastage can also be reduced by preventing moderate injuries (Stage I and II) from developing into severe cases (Stage III and IV), because the severe cases, accounting for 12% of cases, mounted to 30% of the total cost.<sup>4</sup>

#### STAGE I

**\$2,746**

(Up to 28 days to heal)

#### STAGE II

**\$10,347**

(Up to 92 days to heal)

#### STAGE III

**\$17,441**

(Up to 127 days to heal)

#### STAGE IV

**\$22,446**

(Up to 255 days to heal)

### Quality of Life

**A painful burden on the patient.**

IAD can inflict considerable pain, inhibit recovery and cause loss of dignity and confidence.

*The pain felt like pure acid on my bottom- I had no control over it at all. It is the worst pain I have ever experienced*

*Bernie, 54 year old woman, hospital inpatient describing IAD pain.<sup>5</sup>*

## Introducing our very own UCOMS – USL Contenance Online Management System

### 1. RESIDENTS

– store resident information including: Level of Care, Wing, Room, Status and Product Allocations

### 2. RESIDENTS ALLOCATIONS

– an **easy to read**, visual web page showing all resident and their daily allocations. Costs are clearly shown and there is easy click through access to the Resident Card to make changes

### 3. ORDERING

– **fast and simple** ordering process integrated with our existing website cart. Mandatory requirement to complete a stock take for each order results in more accurate stock levels

### 4. REPORTING

– a suite of reporting options including Planned and Actual Costs, Picking List, Residents on 3 or more Pads and Private Paying Report

Ask us how UCOMS can make your incontinent residents' allocations simple

Personalised to fit your needs

> Download Resident locker cards

### Features and benefits – UCOMS

Integrated with the USL Website using existing logins and cart functionality.

Comprehensive reporting options allow for control of your allocations and spend, view any residents on 3 or more pads per day and easily report on private paying costs.

NZ owned and more reliable. We can easily make changes and add functionality to UCOMS as we gather your feed-back.

Email [ucoms@uslmedical.co.nz](mailto:ucoms@uslmedical.co.nz) for more information or to request a demonstration.

View product information, pricing, orders in progress and track shipped orders.

An order approval process can be enabled to give management the opportunity to review and release orders.

**octenilin®**  
Gel 20ml.  
A colourless,  
hydroxyethyl-  
cellulose-based  
hydrogel.

# SOLUTIONS – FOR MANAGEMENT OF LEG OEDEMA

## EASY APPLICATION AND SIMPLE SOLUTIONS FOR WOUND CARE VENOUS INSUFFICIENCY LYMPHOEDEMA

### HIGH QUALITY

Each garment is double stitched to ensure durability and quality standards

### CONTOURED DESIGN

Garment features a curved design to provide a conforming fit

### STRETCH PANEL

The front stretch panel secures garment in place for easy application and high compliance

### EASY TO USE

Straps roll back and attach to garment to prevent tangling

### COMFORTABLE MATERIALS

Soft, conforming Breathe-O-Prene® provides a comfortable fit and wicks away moisture

### TWO Colour OPTIONS

The COMPREFLEX is available in black or beige

### ACCUTAB

Each COMPREFLEX lower leg wrap includes a set of ACCUTAB compression measuring devices

FIND more information here at: [www.uslmedical.co.nz/compression-garments/compreflex-inelastic-wraps/](http://www.uslmedical.co.nz/compression-garments/compreflex-inelastic-wraps/)

## EVERSOFT DIABETIC SOCKS

for women & men

SIGVARIS

Available in  
4 Sizes  
1 Lengths

### FEATURES

Thick, padded soles, heels, and toes for comfort and protection  
Flat, low friction toe seam  
Soft, stretchable knit-in band prevents pinching  
Compression from ankle to knee, compression-free foot

### BEST SUITED FOR

Individuals with diabetes  
Individuals with limited dexterity or lower tolerance for compression  
Individuals with sensitive skin  
Individuals wanting less compression in the foot

### FIBER CONTENT

67% diurelease (57% Polyester, 10% Cotton)  
26% Nylon  
7% Spandex  
Latex-Free

WHITE  
(00)

SIGVARIS

## DOFF N' DONNER

The revolutionary donning and removal device for medical compression stockings

- simplest
- fastest
- most effortless donning aid

FIND more information here at: [www.uslmedical.co.nz/compression-garments/donning-aids/donning-aids/sigvaris-doff-n-donner](http://www.uslmedical.co.nz/compression-garments/donning-aids/donning-aids/sigvaris-doff-n-donner)

## EZY-AS TUBULAR BANDAGE OR STOCKING APPLICATOR

Available in  
small, medium  
and large.

• compact • light • robust

EZY-AS reduces the effort and pain when applying compression garments or tubular bandages. Handle enables patient to apply own stockings.

FIND more information here: [www.uslmedical.co.nz/compression-garments/donning-aids/donning-aids/ezy-as-stocking-applicator](http://www.uslmedical.co.nz/compression-garments/donning-aids/donning-aids/ezy-as-stocking-applicator)

## TriLok<sup>®</sup> External Ligament System™

*“Trilock has been successful with the lady who had marked footdrop and flip floppy slippers. I have even moved her into better fitting slippers and at this stage there has been an improvement in her walking pattern.”*

– Arvida Group, Cascades, Hamilton

### THE ONLY BRACE TO OFFER MEDIAL AND LATERAL UNLOADING

The TriLok<sup>®</sup> has unparalleled versatility, delivering targeted unloading to medial and lateral structures. Positioned medially, the FootLok™ Strap supports the plantar fascia or the posterior tibial tendon. Positioned laterally, the FootLok™ Strap supports and protects the lateral ligaments and the peroneal tendons. The TriLok<sup>®</sup> is effective with almost any type of footwear or with no footwear at all.

**Versatility** Can be applied for medial or lateral pathologies and worn on either the left or right foot.

**Control** Two independent straps stabilise the midfoot and hindfoot.

**Comfort** Low profile allows for normal ankle flexion and extension. Wear barefoot, in shoes or sandals.

### MEDIAL UNLOADING:

- Plantar Fasciitis
- Posterior Tibial Tendon Dysfunction
- Deltoid Sprains
- Subtalar Malalignment

### LATERAL UNLOADING:

- Lateral Sprains
- Peroneal Tendon Damage
- Ankle Arthritis

## Do you have residents who have

- Diabetes ?
- Asthma ?
- Auto Immune disorders ?
- Difficulty swallowing or eating?
- Palliative care?
- A dry mouth

Oral7 improves oral hygiene and helps restore the mouth's natural moisture.

The Oral7® range of oral care products contains natural enzymes to reinforce the function of healthy saliva, thus keeping your mouth moist and balanced.

Your three step approach to a fresh healthy mouth.

1

2

3

There are a number of medical conditions and treatments that can disturb a healthy mouth: Diabetes, Asthma, Sjögren Syndrome, Chemotherapy, Radiotherapy, Kidney dialysis

These can limit the flow of saliva which can lead to 'Dry Mouth' (Xerostomia).

A dry mouth can cause tooth decay, bad breath, gum disease and aphthous injuries when the mouth's natural flora is distributed, allowing harmful bacteria to flourish.

1

### CLEANSE

#### Oral 7® Moisturising Toothpaste

- Helps clean away the bacteria associated with bad breath, sore gums, cavities and plaque
- Low foaming, no sodium lauryl sulphate (drying agent)
- With fluoride and calcium
- Can be used instead of your regular toothpaste

07101S / ORAL 7 Moisturising Toothpaste 10gm tube / each  
07101 / ORAL 7 Moisturising Toothpaste 105gm tube / each

2

### BALANCE

#### Oral 7® Moisturising Mouthwash

- No alcohol + no methanol = no burning or stinging
- Helps keep breath fresh
- Helps promote healthy gums
- Helps clean away the bacteria associated with bad breath, sore gums, cavities and plaque
- Re-balances the Oral bio-system with natural enzymes

07103S / ORAL 7 Moisturising Mouthwash 30ml bottle / each  
07103 / ORAL 7 Moisturising Mouthwash 250ml bottle / each  
07104 / ORAL 7 Moisturising Mouthwash 500ml bottle / each

3

### MOISTURISE

#### Oral 7® Moisturising Mouth Gel

- Extra beneficial for dry mouth sufferers
- Up to 7 hours relief enables uninterrupted sleep
- Helps swallowing
- Helps soothe and protect gums
- Suitable for denture wearers and mouth breathers

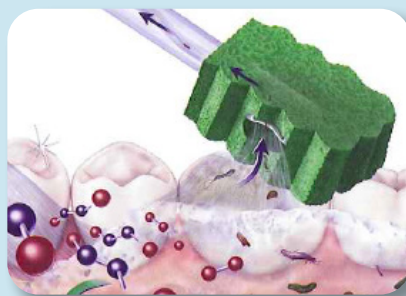

07102S / ORAL 7 Moisturising Mouth Gel 10gm tube / each  
07102 / ORAL 7 Moisturising Mouth Gel 50gm tube / each

# ORAL CARE

## CLEAN

Brushing and suctioning mechanically removes bacterial biofilms (dental plaque) from teeth and oral tissues.

## DEBRIDE

Swabbing and suctioning with Perox-A-Mint® solution helps remove dead, loosened biofilms.

## MOISTURISE

Mouth Moisturiser soothes and moisturises oral tissues.

## OPEN WIDE MOUTH PROP

- Disposable mouth prop, soft foam rigid core
- User friendly, gentle in the residents mouth
- Can be re-used for same resident

90008 / Open Wide Mouth Prop

## SURROUND® TOOTHBRUSH

Helps those with limited dexterity such as arthritis or brain injury to easily and effectively brush their teeth

Easy care for those with Dementia

### FEATURES:

- Compact head with soft, end-rounded bristles clean both teeth and gums
- Head and neck of brush designed to make brushing safer even with those who tend to bite down on the toothbrush

27120 / Surround Toothbrush

Bends for improved access

## TOOTHETTES

Toothette® Oral Care delivers a comprehensive approach to oral hygiene based on cleaning, debriding, suctioning and moisturising the entire oral cavity.

- Can be used with Oral7 range

### Untreated

10124 / Sage Oral Untreated Toothette / BG200

### Treated

Treated Toothettes® contain Sodium Bicarbonate.

10125 / Sage Oral Treated Soda-BicToothette / BG200

## PEROX-A MINT® SOLUTION

Keeping the mouth clean is an important part of overall health. Bacteria in the mouth can form dental plaque, which has been linked to various diseases that originate in the mouth, including gingivitis.

“Perox-A-Mint Solution helps break down plaque build up to keep the mouth healthy and clean.

90011 / Sage Perox-a-mint 1.5oz Bottle / each

## Caring for your Dentures

### FITTYDENT ADHESIVE CREAM FOR DENTURES

**GREAT FOR UPPERS, DESIGNED FOR LOWERS**

- The first and only adhesive worldwide which is not only great for uppers, but also especially designed for lowers
- New technology eliminates any slipping and sliding of dentures
- Not water soluble, thus not washed out while eating and drinking

AP201 / fittydent Adhesive For Dentures 20g tube  
AP202 / fittydent Adhesive For Dentures 40g tube

### FITTYDENT SUPER ADHESIVE CUSHIONS

- Fittydent Adhesive Cushions assure a secure, strong bond between the lower denture and gum in the most difficult cases
- Since the cushion is not soluble in liquids, it is also effective for residents with excess saliva

AP204 / fittydent Super Adhesive Cushion pkt/15

### FITTYDENT SUPER CLEANSING TABLETS

**THE UNIQUE ANTIBACTERIAL FORMULA WITH PH9. ONE TABLET - THREE APPLICATIONS**

- Cleans and whitens full dentures
- Thoroughly removes the non-water soluble residues of fittydent Denture Adhesive and Cushions
- Cleans and whitens partial dentures
- Protects the metal part of the partial denture

AP203 / fittydent Super Cleansing Tablets pkt/32

Don't lose expensive dentures

### IDENTOZ DENTURE MARKING KIT

Kits are available to allow you to label dentures yourself. The kit is sufficient to label around 60-70 dentures.

#### Why label Dentures?

- Dentures need to be labelled to prevent confusion of ownership and loss of dentures
- Maintaining dentures assists in hygiene and longevity of dentures
- Replacement of lost dentures is not only costly but also inconvenient and distressing
- Labels are permanent and safe

DMK001 / Denture Marking Kit

## WOOLTEC SLIMLINE HIP PROTECTORS

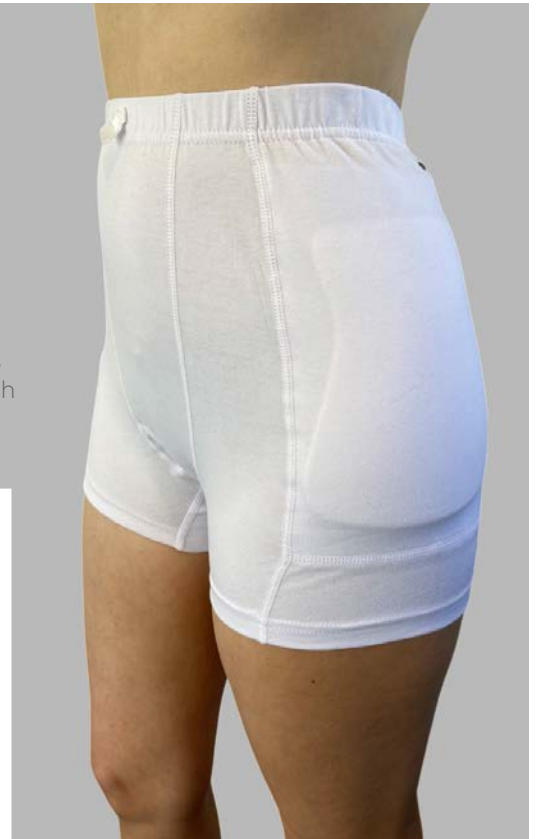

Wooltec Slimline Hip Protectors are designed to absorb or distribute the forces affecting the hip during a fall and therefore reduce the risk of a fracture or injury.

The Wooltec Slimline Guards are made from a Polyurethane Foam to help assist absorbing and distributing shock on impact.

The guards are removable allowing the undergarments to be washed.

**PACK includes one pant and two shields**

Sizes: small, medium, large and x-large both male & female.

HIP FRACTURES  
DRAMATICALLY **INCREASES**  
AN OLDER PERSON'S  
RISK OF DEATH.

One in three adults aged 50 and over dies within 12 months of suffering a hip fracture

## WOOLTEC UNISEX ONESIES

Wooltec Unisex Onesies have been designed to wear over the top of undergarments or incontinence products and to assist with discouraging the user from undressing and removing incontinence products.

Sizes: S, M, L, X-L and XX-L

Grey

White

Available in two designs either the Zip down the back or Domes on top of shoulders.

## WOOLTEC LIMB PROTECTORS

Wooltec Limb Protectors are designed to provide protection to the arm or leg and to assist in healing the skin and preventing skin breakdown.

The breathable COOLMAX fabric which has a Polyester/Wool blend assists the skin by maintaining an even temperature keeping you cool, dry and comfortable.

Available in standard material or with special silver fibre to assist in skin healing and health.

Sizes: S, M, L and X-L

WELCH ALLYN  
THERMOSCAN  
BRAUN PRO 6000

Advanced measurement technology that captures accurate, reliable temperature readings in a comfortable way for patients

When the PRO 6000 probe tip is placed in the ear, it continuously monitors the infrared energy emitted by the tympanic membrane and surrounding tissues, until a temperature equilibrium has been reached and an accurate measurement can be taken.

Large, backlit LCD display is intuitive and easy to read

Dedicated memory recall button to display last measurement taken

60-second timer for manual pulse and respiration measurement

Pre-heated probe tip and sensor helps support accurate measurements

Green illuminating LED signals ExacTemp positioning feedback on probe tip

Ergonomic handle design for a comfortable and secure hold

Innovative PerfectTemp® technology adjusts for variability in probe placement. ExacTemp® technology detects stability of the probe during measurement.

- A pre-warmed sensor helps support accurate measurements
- Memory recall button displays last measurement taken
- 60-second pulse timer can assist you with manual measurement of pulse rate and respirations .
- Our design uses plastics compatible with common medical-grade cleaning products .

AS THERE  
ARE MULTIPLE  
CONFIGURATIONS  
AVAILABLE

CSM

Designed for simplicity and ease-of-use, delivering accurate, automated vitals in one user-friendly solution capturing a full set of patient vitals in less than a minute.

- Blood Pressure SureBP® technology measures blood pressure on inflation in as little as 15 seconds. Plus, automated blood pressure averaging has been shown to help reduce hypertension misdiagnoses.<sup>1</sup>
- Thermometry SureTemp® Plus and Braun thermometry options are known for accurate readings across patient populations.
- Pulse Oximetry Devices support a variety of leading SpO2 technologies: Masimo®, Nellcor® or Nonin®.

## PROBP 2000

Our SureBP inflation-based algorithm is used across Welch Allyn vital signs devices, helping clinicians in every care setting capture automated, fast and accurate blood pressure readings.

- Blood pressure readings are captured more comfortably on inflation and take about 20 seconds
- Meets AAMI standards for blood pressure accuracy
- One-button touch triggers the device to start capturing on cuff inflation
- 97% completion rate in the presence of motion

**40PRO2000** / ProBP 2000, runs on AA batteries

**40107041** / Mains Power Cable

**40107194** / Wall Mount

**40107195** / Stand

## ProBP 3400 with SureBP

Automatic BP unit with fast BP technology.

Does not get tight on the arm

- SureBP™ NIBP technology enables fast, accurate 15-second readings
- Compatible with Welch Allyn cuff sizes from small child to thigh
- Lithium ion battery technology delivers up to 100 readings on a single charge
- Configurable to match your workflow and specific resident needs
- Meets AAMI Standards, awarded BHS A/A rating.
- Obtains accurate readings, even in the presence of some motion or weak pulse

**4034XFHT-6** / ProBP 3400 with SureBP

**40460061** / ProBP Mobile Stand + Kit

**40460161** / ProBP Wall mount - only

**40460261** / ProBP Desk mount

### BURE RISE & GO DOUBLE WALKER

The Bure Rise & Go is a very cost-effective walker enhanced with a patented power rise function. Thanks to the electric power rise function, Bure Rise & Go acts as a combined stand-up, mobility and walking aid all in a single product. Rise & Go is now also available with electric walking frame widening. Flexible widening combined with the lower height above the walking frame enhances versatility regardless of the patient's situation in hospital or at home.

### MOVER AQUA TRANSFER PLATFORM

Mover Aqua is a transfer platform developed to provide smooth, convenient transfer for indoor/flat surfaces. It's easy to use and helps transfer patients safely and conveniently. The Mover has a narrow base frame and double castors for easy manoeuvrability even in confined spaces. Mover has a stable platform and comfortable seat cushions, and thanks to constant eye contact with the carer, the user always feels comfortable and confident. The new MoverAqua is specially designed to be used also in showers. PU cushions together with stainless solutions makes this possible.

#### Features

- This is a non powered unit.
- Max User Weight 180kg
- Width - External 63.5cm
- Width - Step 38cm
- Height 107cm
- Length 4cm
- Seat Height 83cm
- Unit Weight 28kg

### BURE XL POWERED WALKER 240KG

Bure XL was designed for the larger patient and therefore provides extra space and strength.

Because extra powerful aids are required in the care and nursing of heavier patients, Bure XL is always supplied with electric drives.

#### Features

- Width 88cm
- Max user weight 240kg
- Length 78cm
- Height 91-131cm
- Armrest/Internal dimensions 44-62cm

\*These measurements are based on the walker having 125mm casters

# DYNA-FORM™ & ACCUMAX

## AVAILABLE IN

- SINGLE
- KING SINGLE
- DOUBLE
- QUEEN
- BARIATRIC KING SINGLE

## MERCURY ADVANCE - “WINNER OF THE 2016 QUEENS AWARD FOR INNOVATION”

The Dyna-Form™ Mercury Advance is a dynamic mattress replacement system combined with the benefits of modern foam technology. It is specifically designed for residents considered to be at “High Risk” and “Very High Risk” of pressure injury development.

A higher maximum weight capacity 54kg, allows the product to meet the modern challenges of those heavier clients.

The outer cover comprises a high frequency welded, multi stretch and vapour permeable fabric, satisfying the strictest infection control policies. Similarly, the mattress' function can be downgraded as the resident's condition improves.

“Hybrid Step Up, Step Down”

**HIGH RISK**

**VERY HIGH RISK**

## ACCUMAX

The top of the line AccuMax™ Quantum™ Convertible is a non-powered pressure relief mattress that can be converted into a powered pressure relief mattress.

Some special features include a hand-crafted co-polymer and fibre topper, designed therapeutic pressure zones, plus a gentle heel slope.

These features all provide unsurpassed resident benefits and comfort. The Convertible also includes our exclusive Airport™ connection system as standard equipment to allow quick and easy conversion to a powered system with gentle, alternating pressure capability - as easy as 1, 2, 3!

**VERY HIGH RISK**

**HIGH RISK**

## STATIC AIR HZ

Dyna-Form™ Static Air HZ, a new generation of static support surface, developed in conjunction with the Welsh Wound Innovation Center.

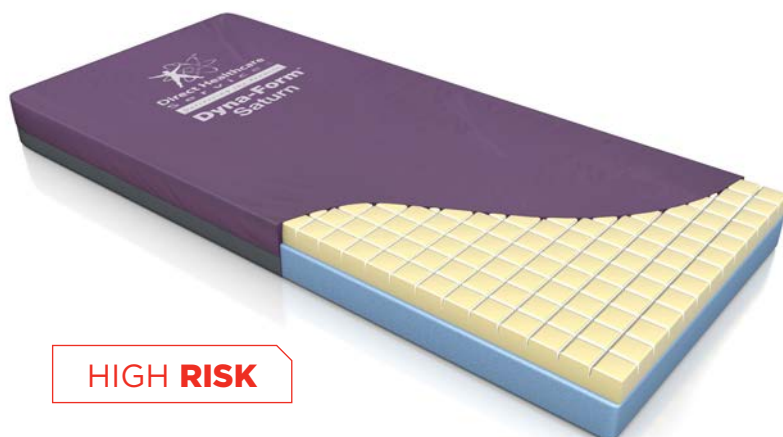

Dyna-Form™ Static Air HZ is a mattress replacement system that combines the benefits of effective air displacement technology with the best of modern foams, for a new standard of innovative pressure injury prevention management.

It's new and unique 'air only' intelligent heel zone and specially designed U-Core effectively offloads pressure on the particularly vulnerable heel area.

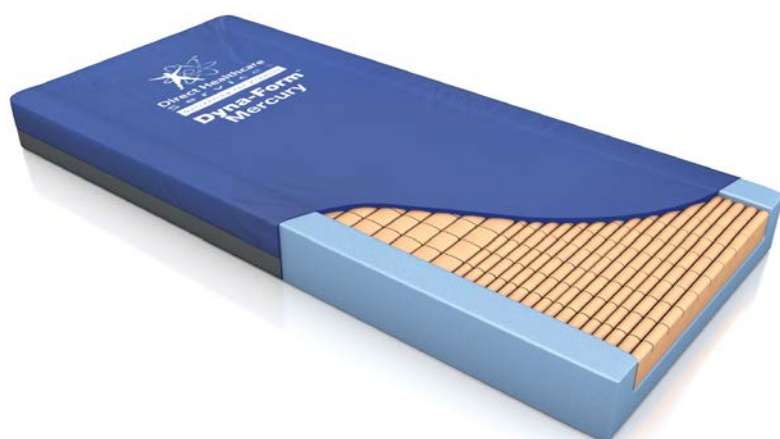

## SATURN

The Dyna-Form™ Saturn mattress is designed for users considered to be that of 'High Risk' of pressure injury development and for residents requiring complete comfort, whilst maintaining the highest pressure care support from a static mattress.

By using a blend of temperature sensitive, visco elastic foam at resident interface with the finest quality CME foam, the Dyna-Form™ Saturn provides excellent pressure re-distribution properties, but with resident comfort foremost considered within its design.

**HIGH RISK**

**HIGH RISK**

## STATIC MERCURY

The Dyna-Form™ Mercury mattress is specifically designed for users considered to be at "High Risk" of pressure injury development. Comprising of a specialist "castellated cut" and blends of the finest quality Combustion Modified High Resilient foam (CMHR) this product provides not only the best pressure re-distribution properties, but great resident comfort & product longevity. Side Wall construction enables primary stability for resident transfer purposes. Complete with a durable, multi-stretch, vapour permeable cover and a toughened polyurethane base, the Mercury mattress provides an important contribution towards the infection control and tissue viability standards of a modern hospital, nursing or homecare environment.

# HILL-ROM PRESSURE HOSPITAL BEDS

## HILL-ROM® 900 ACCELLA™ BED

### Improve patient safety

Reduce patient discomfort with SlideGuard™, especially designed to minimise the need for patient repositioning

- Caregivers can respond more rapidly with Auto CPR, which flattens the back rest and automatically places the bed into a horizontal position, should patient complications occur
- Remote monitoring of patient movement via bed exit alerts at the nurses station (available in selected markets)

### Enhance patient outcomes

- One touch side egress positions the bed for safer and easier bed exit via an ergonomically-placed side egress grip handle
- Optimise patient care with head-of-bed alarm and optional three mode bed exist alarm alerting caregivers of any safety concerns

### Features

- Optional in-bed x-ray, via a selection of Hill-Rom® therapeutic surfaces
- The Hill-Rom® 900 Accella™ offers a built-in ability to transmit patient information (available in selected markets)
- 250kg SWL

## HILL-ROM® HR900 - SSR WARD BED

With Split Siderails and integrated controls.

### Features

- 250kg SWL
- Split siderails with integrated controls, soft lowering helps with moving, handling and entrapment risk
- Electric variable height – foot control
- Electric sliding backrest – reduces shear
- Electric thigh section
- Caregiver and patient control pendant options
- Intelligent auto contour™ – keeping your patients safe
- Patient Egress position – progressive mobility and moving and handling
- Bilateral emergency CPR control
- Orange under bed light, turns green when bed at lowest position
- Head of bed angle indicator
- Four section sleep deck with removable panels
- Drainage bag holder x4 on each side IV pole, O2 bottle holder and self help pole – can be mounted on all four corner's of the bed
- Steering wheel at head of bed
- Central braking on Four castors
- 150mm castors

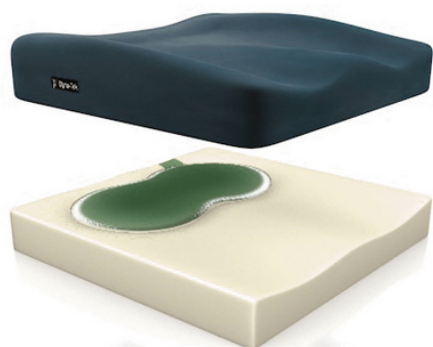

## CENTRELLA® SMART+

The Centrella® Smart+ bed is designed to help keep patients safe and simplify how caregivers work. Verbal Safety Alerts – easily understandable verbal prompts that caution caregivers and patients: “Brake not set”, “Call light not connected”, “Please don’t get up”, “Your care team has been called”, “Function not available”.

- Centrella bed exit alert system
- Scale operations
- Stand assist
- Foley position limit
- Audible alerts
- Siderail protocol status
- Safeview® + system
- Intellidrive® powered transport
- Air mattress controls

# PRESSURE RELIEVING CUSHIONS

## DYNA-TEK™ GEL CUSHION

The Dyna-Tek™ Gel Cushion, designed using the latest polyurethane gel. By incorporating the most advanced raw materials during the manufacturing process, enhanced postural management and greater pressure re-distribution is achieved.

**VERY HIGH RISK**

## DYNA-TEK™ INTELLIGENT AIR

The Dyna-Tek™ Intelligent Air Cushion sets a brand new standard in innovative wheelchair seating, delivering superior 'bespoke' pressure redistribution without the need for any set-up or re-pumping air lost over time.

**VERY HIGH RISK**

## MERCURY ADVANCE CUSHION

The Dyna-Form® Mercury Advance Alternating Cushion is a dynamic replacement seating system, combined with the benefits of modern foam technology. It is specifically designed for residents considered to be at 'Very High Risk' of pressure injury development.

**HIGH RISK**

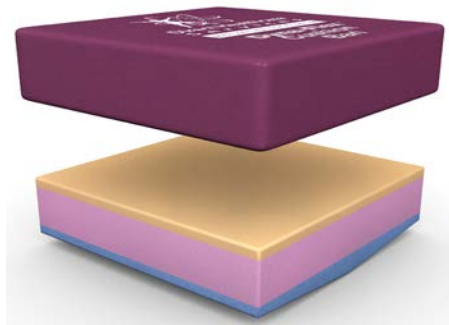

**VERY HIGH RISK**

## DYNA-TEK™ OWL CUSHION

The Dyna-Tek™ Owl Cushion is a uniquely designed postural management product, providing exceptional pressure re-distribution via it's "Owl contoured design", specifically made for users considered to be at "High Risk" of pressure injury development.

**HIGH RISK**

## DYNA™ FLEX CUSHION

The Dyna™ Flex Cushion incorporates the most exclusive combination of visco elastic and CME foam technology, providing outstanding pressure re-distribution and great resident comfort. Suitable for residents considered to be at "High Risk".

**HIGH RISK**

## DYNA-TEK™ POSTURE VISCO CUSHION

The Dyna-Tek™ Posture Visco Cushion is designed to create better postural management, along with greater pressure re-distribution. Made for users considered to be at "High Risk" of pressure injury development.

**HIGH RISK**

# POSTURE SUPPORT CHAIRS

## DUO MAJOR MANUAL

The Duo is the most versatile seating system designed for those who are unable to maintain their posture and need high levels of pressure relief.

The adjustable and key features of the Duo ensure the core principles of seating are met for each individual.

### Accessories:

- Lateral supports
- Leg-laterals
- Pommel
- Leg rest bracket to achieve a 25° negative angle
- Flat seat board
- Foot sandals
- Ankle huggers
- Lap-belts and pelvic positioners
- Universal mobile tray
- Weight limit: 160kg

## FLORIEN II

A dynamic and highly mobile seating system, the Florien II enables greater independence by promoting correct posture and facilitating a supportive, comfortable seated position.

The removable arm is a fantastic feature of this chair, making it suitable for those who are hoisted or able to side transfer.

### Accessories:

- Height adjustable flip up footrest
- Adjustable lateral supports
- Adjustable headrest
- Lap-belt
- Pelvic positioners
- Universal tray
- Flat seat board
- Weight limit: 180kg

## KIRTON GE-II RANGE

Representing a new generation of dynamic specialist chairs and underpinned by a scientific bio-mechanical research and ergonomic design principles, the G-2 is an uncomplicated yet sophisticated dynamic tilt-in-space chair providing superior postural support, exceptional positioning and outstanding comfort and pressure management.

- Care home and hospice environments
- Domestic home use
- For those at risk from pressure related issues
- For those seated for lengthy periods
- For those who require support and positioning assistance
- For the semi and non-ambulant user
- Arcing legrest motion without compromising footboard positioning
- Adjustable footboard height and angle
- Adjustable seat length
- Good hoist access
- Weight Limit: 180kg/28 stone

# ASPIRE LIFTING HOISTS

The Aspire 150F & 205 are compact lightweight and portable resident lifters designed for aged care environments.

## ASPIRE 150F

### Features:

- Folds for Transport and Storage
- Ergonomic Handset
- Off Set Leg Design: Provides additional accessibility around chairs and furniture in the home
- Leg Function: Simple foot operation to open or close legs for lifting stability or accessibility
- Quick Release Yoke Attachment
- Build Quality: 5 year warranty on Frame
- Safety: Critical features include emergency stop button, emergency lowering
- Intelligent Diagnostics: State of the art Linak Jumbo Care control system
- Item Weight: 32.9 kg
- Tested and compliant to AS/NZS ISO 10535:2011 (the AU/NZ standard for hoists)

## ASPIRE 205

### Features:

- Transportation or storage
- Ergonomic handset
- Adjustable Height: Three adjustable height settings
- Powered Leg Function
- Quick Release Yoke Attachment
- Build Quality: Industry leading Linak electronics and warranty provision
- Safety: Critical features include emergency stop button, emergency lowering
- Intelligent Diagnostics: State-of-the-art Linak Jumbo Care control system
- Item Weight: 38.1 kg
- Tested and compliant to AS/NZS ISO 10535:2011 (the AU/NZ standard for hoists)

# SABINA II EE & VIKING

## SABINA II EE

### THREE LIFTS IN ONE

Sabina differs from other sit-to-stand lifts. The well-thought-out accessories give several different possibilities on one single lift. Being able to adapt to a raising motion or a lifting situation according to the resident's abilities obviously gives a better result than using the same solution for all residents.

## LIKO™ VIKING - XL

For the most demanding lift. Lifting heavy patients entails great responsibility. Although Viking XL has been specially developed for very heavy patients, it is also suitable for average-sized people. Despite its size, Viking XL weighs only 43kg and is very easy to handle.

- **SWL:** 300kg
- **Weight:** 42kg
- **Lifting Height:** 187cm

## SystemRoMedic™

### ROMEDIC EVA450EE MOBILE HOIST

The RoMedic Eva450 is a versatile mobile patient lift for all lifting situations and for users weighing up to 205 kg.

- **SWL:** 205 kg

### ROMEDIC EVA600EE MOBILE HOIST

The RoMedic Eva600 is a versatile mobile patient lift for all lifting situations and for users weighing up to 270 kg.

All variants of Eva600 are supplied complete and ready to use, fitted with a stable sling bar with reliable safety latches and a hand control. The sling bar is standard width (450 mm) which is suitable for most users and lifting situations.

- **SWL:** 270 kg
- Aluminium for low weight – easy to manoeuvre
- Built-in charging

### ROMEDIC CHARGER HOIST SCALES

The RoMedic Charger MHS2500 scale set can be used together with stationary or mobile lifts for weighing of users. Charger MHS2500 is available in two models; one for users weighing up to 400kg.

## UNIVERSALSLING™ SIZES FROM XS – XXL 200-500KG

Liko UniversalSling offers comfort and security in lifting for both patient and caregiver. Its suitable for most lifting situations which makes it a good choice when caregivers are uncertain about which patient is going to be lifted.

The UniversalSling's design supports the entire back and keeps the patient's arms held inside the sling. Correctly fitted and properly applied, the sling provides the patient with a sense of security and comfort.

The UniversalSling is ideal for lifting both with separated leg supports and with leg supports overlapped under both thighs. It is available in polyester, and mesh net polyester.

## ORIGINAL HIGHBACK SLING SIZES FROM XS – XXL & BARIATRIC 200-500KG

The Original HighBack Sling is Hillrom's most popular sling. This model provides comfortable, whole-body support suitable for most patients.

This sling has separated leg supports to ensure that the patient does not sit on the sling after use. Instead, the sling is easily removed from the chair after the transfer. This sling is one that is recommended for lifting to and from the floor but is suitable for any lifting. .

## LIKO™ AMPUTEE SLING

Liko Amputee Sling is a safe, easy-to-use sling that has been specially designed as an aid to lifting residents with high double-sided leg amputations. We also recommend the Amputee Sling for residents who are not amputees, but who tend to slide out of similar types of slings. Amputee Sling may be appropriate for other residents, such as single-sided amputees.

## LIKO™ SOLO SLING (SINGLE RESIDENT USE)

- Products for short-term use

The spread of multi-resistant bacteria (MRB) within healthcare, along with the increased demand for products for short-term use, has led to the development of Solo™ – a range of disposable lifting accessories.

What is unique about most of the Solo™ products, compared to our ordinary lifting accessories, is that they are made from a very strong non-woven material. Solo RepoSheet™ is the exception, as this product is made in a cotton/polyester fabric.

Solo™ products are not intended to be washed but are to be disposed of once they have become soiled or when the resident no longer needs them. In other words, they are designed for short-term use by one particular resident.

Apart from being an effective solution for preventing the spread of infection, the lifting accessories also have economical and practical advantages: laundering is eliminated and they are always immediately available in the facility.

## OTHER SINGLE RESIDENT USE PRODUCTS

### Liko™ Solo RepoSheet™

Solo RepoSheet™ is used to move up residents who have slid down in the bed or to turn bed-ridden residents.

### Liko™ Solo Octo

LiftSheet™ Solo Octo LiftSheet™ is intended for horizontal lifting with Liko™ OctoStretch™.

### Liko™ Solo LiftSheet

1800™ Solo LiftSheet 1800™ is intended for horizontal lifting with the LikoStretch Mod. 600 IC™.

### Liko™ Solo LiftSheet

1900™ The Solo LiftSheet 1900™ is intended for horizontal lifting with LikoStretch 1900™.

### Liko™ Solo MultiStrap™

Solo MultiStraps™ are used to lift and hold parts of the resident's body, in order to facilitate examination, care and treatment.

### Liko™ Solo SupportVest™

Solo SupportVest™ is used with the Liko™ Sabina™ sit-to-stand lift.

### Liko™ Solo Cover for

Liko™ Ultra LiftPants™ Solo Cover is a disposable accessory for Ultra LiftPants™ for Bariatric gait training.

**FURTHER  
CLINICAL  
INFORMATION  
AVAILABLE**

# BARIATRIC LIFTING & HANDY BELTS

## LIKOGUARD™ OVERHEAD LIFT

The LikoGuard™ series, the newest overhead lift system, will offer a selection of industry-leading features including:

- A redesigned sling bar (shown in image), built to enhance resident safety, with a patented design that is unique to the market
- Lightweight, environmental friendly lithium-ion battery technology withstands deep discharge, and is designed to bring reliability in function and durability
- The patented, manual emergency stop and emergency lowering mechanism is easy to reach, engage and operate during a time when it's needed the most. No work tools (i.e. ladder or Allen wrench) or force needed to lower the resident

In addition, the LikoGuard™ L and XL lifts have already undergone extensive testing for both durability and reliability, including:

- Lift cycle tested according to Real World Usage Profile
- Extensive safety margin testing on both critical and load-bearing components

### Two options for motor lifting capacity:

- L is 272kg SWL
- XL is 363kg SWL

# REPOSHEET & MULTISTRAP & SLIDE SHEETS

## REPOSHEET™

Everybody knows that it is almost impossible to lie still in bed — not even when we sleep do we lie still. Even severely disabled persons sometimes end up wrongly positioned in the bed. Consequently, lifting and repositioning residents is one of the most common operations around a bed.

- Available in washable fabric or single patient use model

## MULTISTRAP™

MultiStrap™ is a lifting accessory from Liko™ which completes the other lifting and repositioning aids in Liko's wide range. MultiStrap™ has been developed to meet a variety of needs in care and can be used to hold arms, legs and other parts of the body, for example, during treatment or washing.

### Important Features

- Three washable MultiStraps in different sizes
- Also available are MultiStraps in disposable fabric intended for short-term use by an individual resident

## SIMPLE TRANSFERS WITH ACTIVE RESIDENTS

HandyBelt facilitates short transfers, without mechanical lifting equipment.

HandyBelt is equipped with a strong and secure SafetyBuckle which has been strength tested up to 200kg.

HandyBelt has 7 to 13 handles, depending on size. The handles give a good grip for the resident or caregiver and are placed both horizontally and vertically along the entire belt. HandyBelt is available in four sizes, from S to XL. Each has a smart colour making for quick size identification.

**L3760014** / Code for both X-Small & Small

**L3760015** / Medium

**L3760016** / Large

**L3760017** / X- Large

### ROMEDIC ONEWAY SLIDE

Ideal for positioning in a chair or a wheelchair

OneWaySlide is a sliding mat with many functions. The main one improves sitting positions in chairs or wheelchairs.

### ROMEDIC ONEWAY SLIDE WITH HANDLES

It effectively slows forward movement yet slides backwards, making it easy for the user to help the patient move into a more comfortable position. It is easy just take the handles and pull – without a great use of force.

### ROMEDIC AUTOSLIDE

Getting into a car can be awkward and hard, but if done easily then this is the key to freedom for many people. The Autoslide is a device that makes it easier to get into cars in a comfortable position. Size 48cm x 48cm.

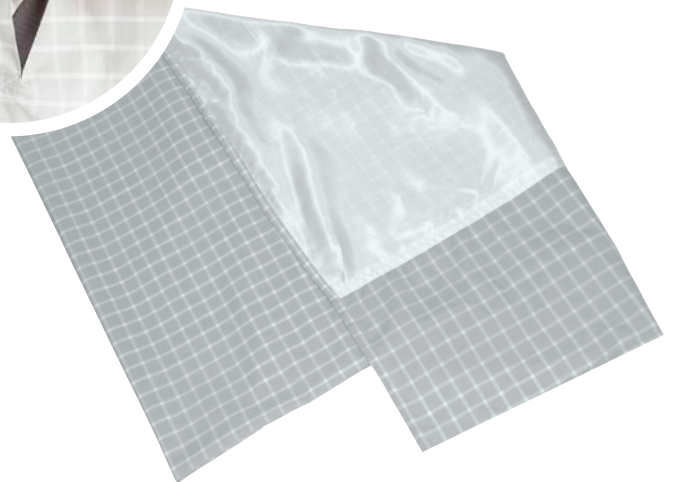

### WENDYLETT RANGE

Comfortable Functional Material. A transfer aid which helps prevent pressure injuries

#### The WendyLett family consists of

WendyLett is a satin sliding sheet and a base sheet to be combined with

- WendyLett2Way, a drawsheet for sliding sideways or
- WendyLett4Way, a sliding drawsheet for multi-directional sliding.
- WendyLean pillow cover
- Mattress positioning cover

### USL SLIDESHEETS

- Slide sheets help reduce shear and friction when moving residents in beds, turning residents on their sides or transferring residents from a bed
- Training is required as incorrect application can cause injury to both carers and residents
- For residents who have fallen into a confined space; slide sheets can be used to move the residents along the floor to a location where a hoist can be used

# CLOTHING PROTECTORS & LAUNDRY CARTS

## CLOTHING PROTECTORS

- Absorbent surface fabric offers a dignified appearance and effective liquid protection
- Highly durable, quick-drying material ensures minimal shrinkage and resists piling, reducing replacement costs
- Adjustable, stainless steel snap closures at back of neck keep clothing protector securely in place

**90146** / Clothing Protector 45 x 90cm Blue

**90147** / Clothing Protector 45 x 90cm Blue Stuart

**90148** / Clothing Protector 45 x 90cm Gingham

**10836/SC/B** / Clothing Protector 45 x 90cm Blue Check

**10836/SD/B** / Clothing Protector 45 x 90cm Green Check

## MIP CHAIR PAD AURORRA

- Retains colour longer and lays flat
- Impermeable barrier

**2212/A/BL** / MIP Aurorra Chair pad 53 x 58cm Blue

**2212/A/BR** / MIP Aurorra Chair pad 53 x 58cm Brown

**2212/AVY** / MIP Aurorra Chair pad 53 x 58cm Burgundy

## LAUNDRY CARTS

- Rust-proof stainless steel frame provides long-term durability
- One, two, three or four bag configurations are available to meet your specific requirements
- Snug-fitting lids control odours
- Unique fitting ring holds bags securely in place
- Quality, full-swivel wheels allow for ease of mobility
- Limited lifetime warranty
- Foot pedal option

**90050** 1 bag cart 48W x 38L x 94H

**90051** 2 bag cart 48W x 66L x 94H

**90052** 3 bag cart 48W x 99L x 94H

**90127** Bag frame replacement

**90128** Foot Pedal complete

**90129** Foot Pedal replacement

**90130** Lid replacement

## WATERPROOF & STANDARD LAUNDRY BAGS

- Waterproof bags, impermeable barrier to keep in fluids & odour
- Standard bags, with drawcord top
- Available in wide range of colours
- Designed to fit MIP laundry carts
- 70cm x 97cm

### Standard Laundry Bags
