

HANDISAN™ FOAM

HAND SANITISER

BENEFITS

- Kills 99.999% of germs
- Non-Flammable
- Non-Hazardous & Non-Toxic
- Contains Lipidure®, a biomimetic moisturiser
- Fast acting

Handisan Sanitising Foam is a non-flammable, instant hand sanitiser – kills 99.999% of germs. Handisan Sanitising Foam contains Lipidure®, a biomimetic moisturiser which hydrates skin, leaving hands feeling soft, smooth and refreshed.

Handisan Sanitising Foam is alcohol free and non-flammable. It is designed to be used instead of alcohol based hand rubs.

Alcohol based hand rubs are classified as Dangerous Goods and therefore present a significant OH&S risk, they are a potential fuel source and require special storage considerations. Using Handisan eliminates this risk.

Handisan Sanitising Foam contains Lipidure®, a biomimetic moisturiser which increases the hydration of the skin. Biomimetic moisturisers replicate the skins natural ability to retain skin integrity. Loss of skin integrity is associated with occupational dermatitis.

HAND HYGIENE DISPENSERS

- Available in Manual or Infrared (Touch free)
- Suitable for 1L Handisan pod
