## Saf-T Wing® Blood Collection Sets

---

Promotes end-to-end safety for end-to-end compliance

# SAF-T WING® BLOOD COLLECTION SETS

For more than 15 years, Smiths Medical has provided a wide range of innovative safety blood collection devices to help protect healthcare professionals. The Saf-T Wing® Blood Collection Set has many innovative features that help promote safety and ease-of-use.

## In-vein activation

- Safety mechanism is activated while needle is in patient's vein – limiting phlebotomist's exposure to a contaminated needle
- Activated with a simple two-handed technique

Molded needle cover stays in place, but easy to remove

Color-coded hub and package for easy needle gauge identification

Finger stop shows bevel orientation

Available with 6" or 12" length tubing for maximum flexibility

Clear housing and tubing to see flash

Available with 21G, 23G or 25G needles

Wings attached to safety housing allowing in-vein activation

Shut-off clamp to minimise blood dripping during disposal

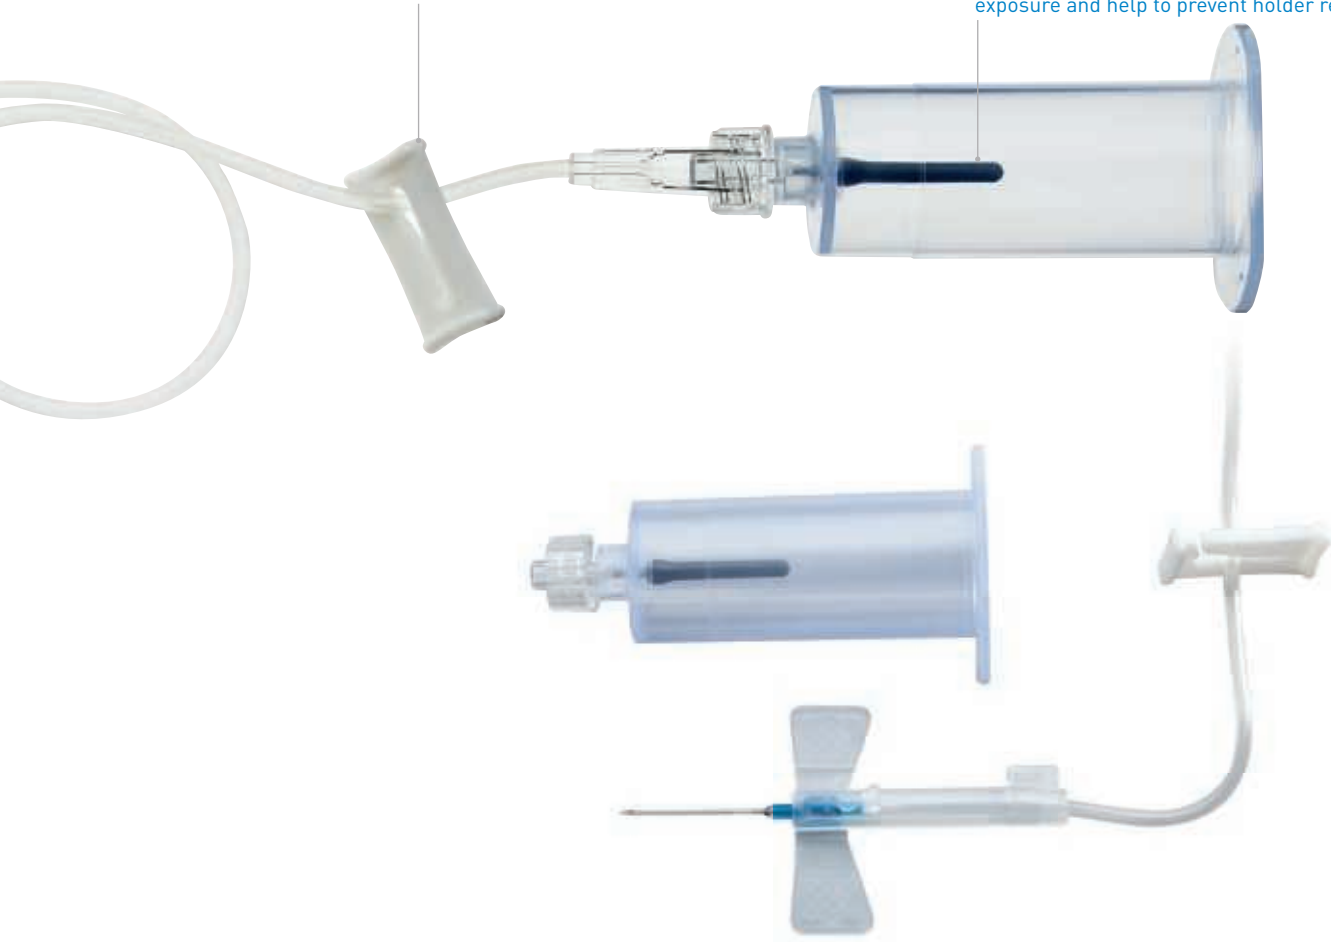

ADVANCED  
FEATURES THAT  
HELP PROTECT  
YOU AND YOUR  
PATIENTS

Slide clamp to facilitate switching  
from tubing draw to syringe draw

Saf-T Pre-attached Holder® device with permanently  
attached back-end needle and Luer lock to minimise  
exposure and help to prevent holder re-use

## Saf-T Wing® Blood Collection Sets

1

After stabilising the needle, just pull to disengage Saf-T Wing® device and activate safety feature.

2

Needle retracts and locks into place inside the safety housing when finished.

3

Wrap tubing around shut-off clamp to minimize blood dripping during disposal.

## Ordering Information
