

# ENTOP Plus & Flexi Nozzles

## ENTOP Plus Spray:

- As effective as Cocaine in topical mucosal vasoconstriction and anaesthesia.
- Less toxicity than Cocaine.
- Significantly less expensive than Cocaine.
- No recording required.

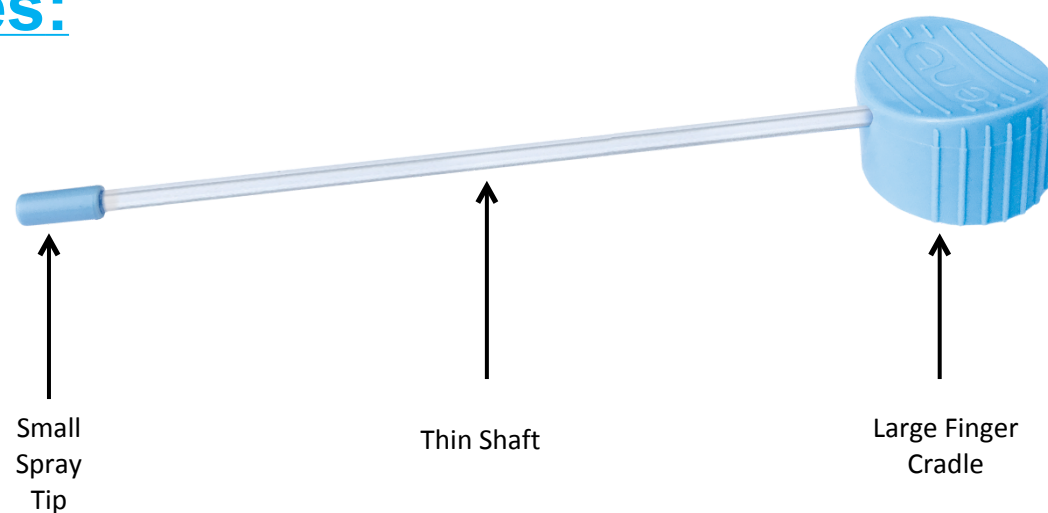

### Indications - ENT

- Preparation of nasal and pharyngeal mucosa for instrumentation and minor procedures.
- Epistaxis / Removal of FB's/ Nasendoscopy.

### Anaesthetics – Topicalising the Airways for:

- Awake fibreoptic intubation.
- Nasotracheal intubation.
- Insertion of Nasopharyngeal airways.

## Flexi Nozzles:

### Disposable wrapped single-use nozzle benefits:

- **Individual wrapping** of nozzles to eliminate risk of cross infection between patients and enable hygienic handling before use.
- **Large finger cradle** for easy operator use.
- **Thin transparent shaft** for ease of use.
- **Small spray tip** producing a fine mist spray.
