

# If you can't Stay home and Stay Safe, then STAY PROTECTED!

**PROTECTION IS KEY FOR ALL FRONTLINE STAFF.** The use of a faceshield provides excellent added protection of mucous membranes that are potential entry points for virus particulates. The USL faceshield is a high quality PET Anti-fog faceshield designed and manufactured for healthcare professionals. It provides excellent added protection while not compromising comfort or vision.

**Product Size:**  
**29cm x 25cm x 2.5cm**
